

Services Offered by Schendel Lawn & Landscape

- **Thrive Lawn Care Program**—Keep your lawn healthy, green, and weed-free with Thrive Lawn Care! This program is designed to prevent and eliminate weeds and promote greening of the grass, and includes Our Promise: *to make your life easier with fast replies, follow through and integrity in everything we do. If you're not satisfied, we'll make it right.*
- **Grubicide**—Grubs are common insects which feed on the healthy roots of grass. This limits the grass's ability to take in water and nutrients, causing it to decline or die out in late summer and early fall. We can preventatively control grubs with a granular treatment in late spring. This is not included as part of the Thrive Lawn Care Program because not all lawns need the treatment, so we offer it as a separate service to avoid unnecessary treatments.
- **Bagworm Treatment**—Bagworms are caterpillars that feed on tree foliage, most commonly on evergreens. Protect your trees with a bagworm treatment in late spring/early summer.
- **Chigger, Flea, and Tick Control**—Don't let fear of insect bites keep you from spending time in your yard. Protect your family and pets and keep your yard free of these annoying pests until fall with our five-service program, or schedule a one-time treatment before a graduation party, 4th of July celebration, or backyard BBQ. This service has also proven to be effective in preventing and treating armyworms.
- **Mowing and Trimming**—Spend your time relaxing and enjoying your yard instead of working in it. Our mowing service will give your lawn a professional look while giving you time to do the things you enjoy. This service includes mowing, string trimming, edging, and blowing cut grass off hard surfaces.
- **Overseeding**—We offer lawn overseeding in the spring and fall. Overseeding helps fill in bare spots in your lawn and is an excellent way to prevent weeds. A full turf means less room for weeds to grow. We recommend seeding every other year at a minimum. Overseeding appointments fill up quickly, so sign up early to reserve your spot.
- **SMART Irrigation Program**—Schendel will actively manage your irrigation system to ensure it is working efficiently and effectively, lowering your water costs and saving you money. All repairs to the existing system are done at no additional charge. ***There are no hidden costs and no surprises—just one low, monthly payment.*** Also included is system turn on, turn off, and backflow check and regulatory filing with the appropriate agency or company, as well as regular system inspections and seasonal adjustments.
- **Irrigation Services including Design and Installation, Turn On/Off, Backflow Check, Maintenance, and Repairs**
- **Landscape Design and Installation**—Schendel can turn your ordinary yard into an extraordinary part of your home, perfect for relaxing and entertaining. Our design and build team can create beautiful landscapes, fire features, retaining walls, steps and walkways, patios, outdoor kitchens, and more. We also offer a Lifetime Plant Warranty Program to protect your landscape investment and sustain the health and vitality of your plants.
- **Landscape Maintenance**—Want your landscape to look its best, but don't have the time and/or knowledge? Consider a landscape maintenance program. Services include weeding, pruning, leaf clean up, flower bed clean up, mulching, and more. Landscape is an investment—protect yours and keep it looking beautiful all year, while also having time to relax and enjoy it.
- **Landscape Bed Fertilization**—Protect the investment you've made in your landscape beds by fertilizing them in the spring and fall. This service will feed the plants and promote growth and flowering.
- **Landscape Bed Pre-Emergent**—Control weeds in your landscape beds with this pre-emergent treatment.
- **Mulching of Landscape Beds**—Mulch is a simple and effective way to add curb appeal, as well as control weed growth and retain moisture from rain and watering.
- **Landscape Lighting Installation**—Enhance the beauty of your home and landscaping with outdoor lighting. High quality, energy-efficient lighting adds an atmosphere of warmth and relaxation to your outdoor living area.
- **Landscape Lighting Checkup**—Annual visit to clean, straighten, and check landscape lighting features. Cost does not include bulb replacement, if needed.
